

How congestion pricing will benefit the Northeast Bronx

WOODLAWN HEIGHTS • WAKEFIELD • EASTCHESTER • CO-OP CITY • BAYCHESTER • OLINVILLE • ALLERTON • PELHAM GARDENS • MORRIS PARK • VAN NEST

New York City's transit system is in crisis

Congestion pricing is a realistic step we can take to reduce traffic, cut air pollution, and increase funding for public transportation.

- ▶ **Congestion pricing** would charge drivers entering Manhattan below 60th Street at certain times, and use the revenue for citywide transit improvements.
- ▶ **If congestion pricing is not passed, transit fares will need to rise by 27%** to pay for essential projects, according to the MTA.
- ▶ **In London**, congestion pricing has improved transit, reduced traffic congestion by 15%, and reduced greenhouse gas emissions by 20%. In Stockholm, traffic congestion decreased by 22% and childhood asthma rates dropped by 50% after congestion pricing started.

Improvements are planned — but need funding

These MTA projects are underway or already completed:

- ▶ Full ADA accessibility at Gun Hill Road 5 station
- ▶ Upgrade elevators and roof replacement at Gun Hill Bus Depot
- ▶ Initial work to bring Metro North service into Penn Station (Penn Access)
- ▶ Provide new intercoms so customers can speak directly to transit employees for information or emergency assistance

Many of these projects are delayed or in need of additional money to proceed:

- ▶ More reliable train service on the 2 and 5 lines
- ▶ Over 180 fully accessible (ADA) stations system-wide in 10 years
- ▶ Replace escalators at Pelham Parkway Station
- ▶ Metro-North service directly into Penn Station with new stations in Hunts Point, Parkchester, Morris Park and Co-op City

Help New Yorkers get where they need to go — Get congestion pricing passed in 2019!
