

# How congestion pricing will benefit the Northwest Bronx

NORTH RIVERDALE • RIVERDALE • SPUYTEN-DUYVIL • MARBLE HILL • NORWOOD • FORDHAM MANOR • JEROME PARK • UNIVERSITY HEIGHTS

## New York City's transit system is in crisis

**Congestion pricing is a realistic step we can take to reduce traffic, cut air pollution, and increase funding for public transportation.**

- ▶ **Congestion pricing** would charge drivers entering Manhattan below 60<sup>th</sup> Street at certain times, and use the revenue for citywide transit improvements.
- ▶ **If congestion pricing is not passed, transit fares will need to rise by 27%** to pay for essential projects, according to the MTA.
- ▶ **In London**, congestion pricing has improved transit, reduced traffic congestion by 15%, and reduced greenhouse gas emissions by 20%. In Stockholm, traffic congestion decreased by 22% and childhood asthma rates dropped by 50% after congestion pricing started.

## Improvements are planned — but need funding

### These MTA projects are underway or already completed:

- ▶ Provide full ADA accessibility at the Bedford Park Blvd, and Kingsbridge Road B/D stations
- ▶ Upgrade station lighting at multiple stations
- ▶ Provide new intercoms so customers can speak directly to transit employees for information or emergency assistance

### Many of these projects are delayed or in need of additional money to proceed:

- ▶ More reliable train service on the 1, 2, 3 and 4
- ▶ Over 180 fully accessible (ADA) stations system-wide in 10 years
- ▶ Purchase over 3,000 new subway cars to improve reliability on the the 1, B and D lines
- ▶ Transition to a zero-emissions bus fleet

## Help New Yorkers get where they need to go — Get congestion pricing passed in 2019!
